

**POLICY RC12**

**NEW PLAYING FIELD PROVISION IN DAVENTRY WILL BE MADE ON THE BASIS OF 1.6 HECTARES FOR EVERY 1000 PEOPLE.**

- 9.32 The analysis of participation rates in sport and of existing demand for pitches in Daventry has shown that a standard of 1.6 hectares (3 acres) of playing fields for every 1000 people is appropriate. Account has been taken of the likely changes in the population structure, but this standard will be continuously monitored to ensure a balance of supply against demand.
