

Daventry District Community Infrastructure Levy

Charging Schedule

Report under Section 213 (3B) Planning Act 2008

The Daventry District Community Infrastructure Levy (CIL) Draft Charging Schedule was examined by Mr Keith Holland and his report and recommendations were received by the Council on 19th June 2015. He recommended that the CIL Charging Schedule be approved subject to the modification set out in Appendix A to his report.

The modification required that the charging schedule for residential development in the rural zone at or above the affordable housing threshold be reduced to £65.

The Council has amended the charging schedule as required. The CIL Charging Schedule was formally approved by the Council with the required modification on 30th July 2015. No other modifications were required by the Examiner.
