

Crick Neighbourhood Area Application

Decision Document

In accordance with the Neighbourhood Planning (General) Regulations 2012, this decision document sets out the reasons for refusing the neighbourhood area application submitted by Crick Parish Council to Daventry District Council on 10 April 2015.

The District Council has also exercised its power of designation so as to secure that all of the area specified in the application is designated as a neighbourhood area. Two neighbourhood areas have been designated:

- The Crick Village Neighbourhood Area, which is not designated as a business area.
- The Crick Commercial Neighbourhood Area, which is designated as a business area.

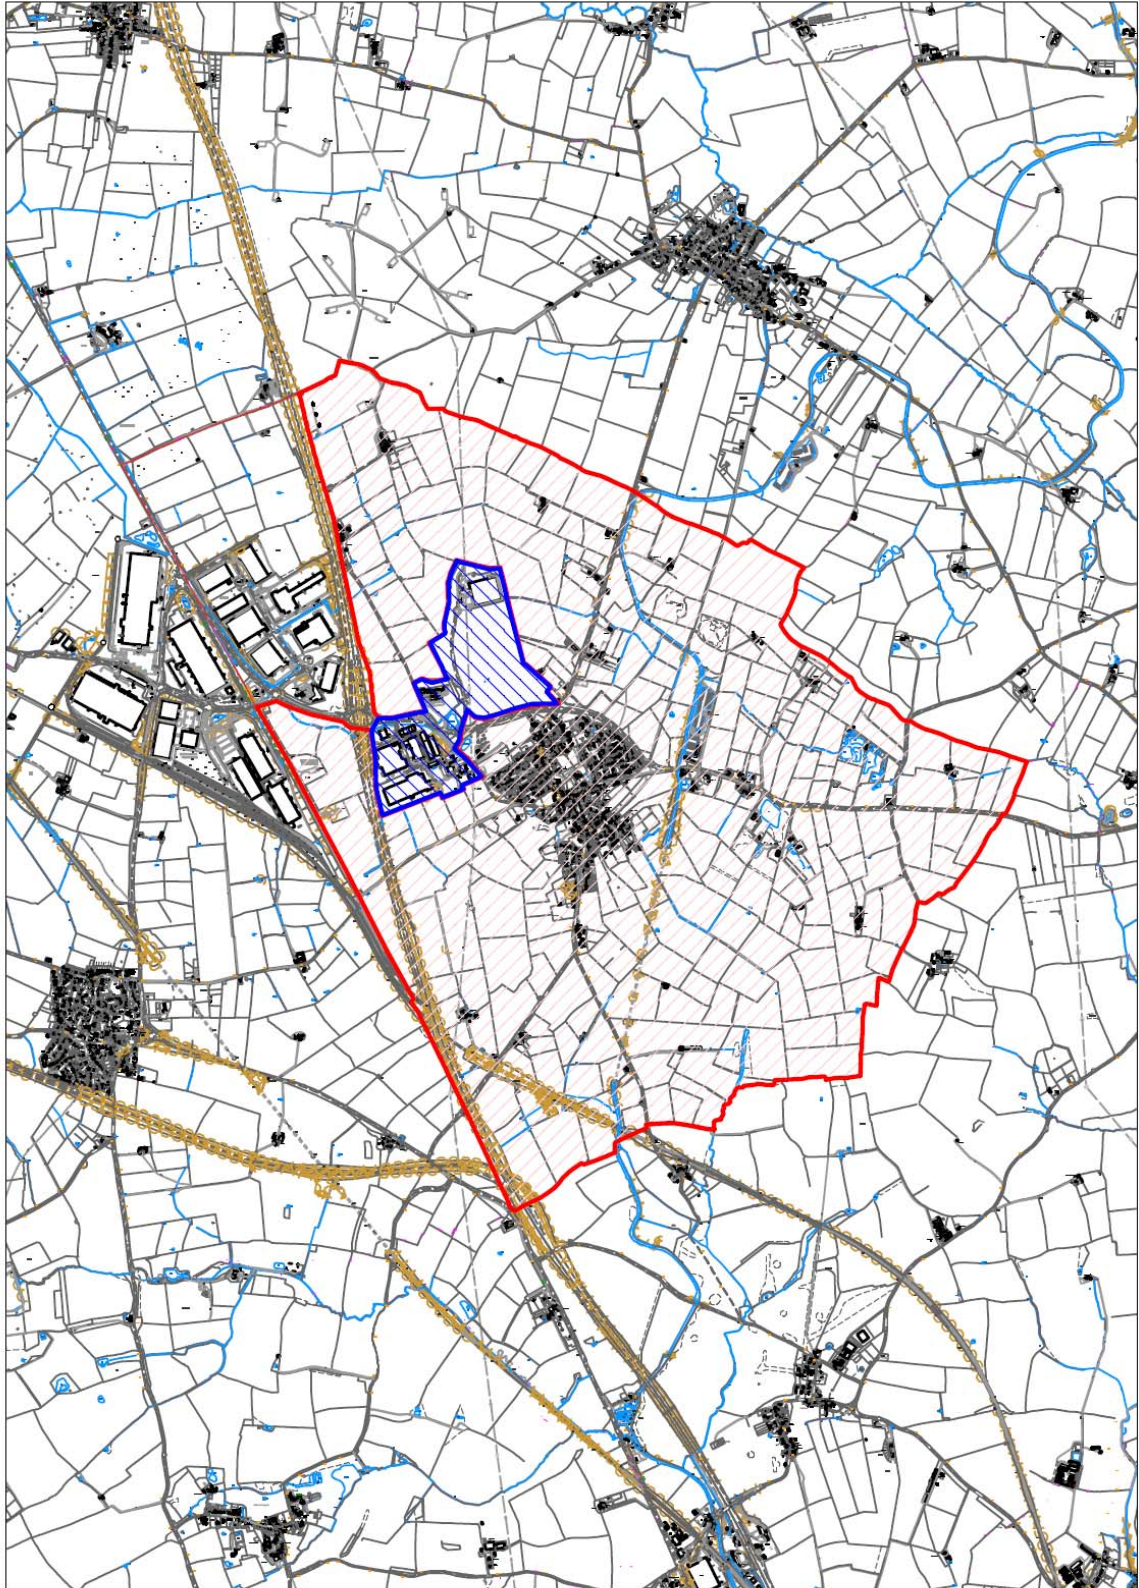

The reason for the formal refusal of the original application is that it is considered that the substantially commercial estate within part of the Parish is predominantly business in nature and it is important to allow for the full engagement of businesses in decisions about the future of that area, as provided for by Parliament.

A copy of 'Plan 2', which shows the two neighbourhood areas designated, is attached to this document.
