## Guidance for Capital Grant Applications 2020/21

### Timescales

Applications are accepted at any time throughout the financial year with decisions made on a monthly basis whilst funding remains. The deadline for each round of funding is listed below. If any information is missing from an application, Daventry District Council will request this before the application can be processed. Applicants will be notified in writing after a decision has been made on their application.

Successful applicants will need to ensure that all grant funding is spent within 12 months of notification of the grant. If all or part of the grant is not spent within 12 months, this will result in the grant being withdrawn unless otherwise confirmed in writing by Daventry District Council.

### Introduction

These guidance notes should be used to assist organisations in completing applications for capital grant funding. They explain what Daventry District Council needs to know from your application to make an informed decision about awarding funds towards your proposed project. The guidance notes also outline the process by which each application will be scored as we have to prioritise the limited funds we have. The Chief Executive of Daventry District Council makes the final decision on allocation of funds.

Where there are a high number of good quality applications, the Council may also take into account other factors such as the distribution of funding to projects across the District in the recent past. It may also consider what other funding or income your project has already attracted or is trying to attract to enable it to go ahead. If there are new housing developments planned, the Council may consider how these might impact on existing projects. It is also important to note when considering your project that the Council will be looking to encourage appropriate partnership working.

Daventry District Council only provides grant funding for voluntary and community organisations for specified purposes. Individuals, private businesses, religious bodies, political bodies, and statutory bodies including parish councils and schools, are not normally eligible to apply. However, if such bodies can demonstrate that the purposes for which they are requesting funding have a wider community benefit and contribute positively to the ongoing future provision of services to the community, an application will be considered.

In addition to capital grant funding, Daventry District Council offers funding towards one-off community events and smaller community projects towards the purchase of small items of equipment and training. There is a separate application form for these grants and this form should not be used for that purpose.

## Capital Funding

Daventry District Council's **total** budget for capital grants for 2020/2120 is £60,000.

Organisations may apply for capital grant funding of up to £15,000 to cover capital purchases or projects over £1,000. The grant may pay for up to 50% of the total cost. For building works or improvements to land or buildings, the organisation must either own the property or land or have some form of long-term lease agreement with the land/building owner. Once the final agreement has been made to fund a particular project, in most instances 50% of the value of each invoice/receipt submitted will be paid up to the total figure awarded; however, in certain circumstances this may vary.

The scoring criteria is broken down into four themes: 1) Strategic fit 2) Project analysis 3) Measurement and impact and 4) Organisational ability.

	<b>Question</b>	<b>Max Score</b>

	<b>Total Score</b>	<b>100</b>

**GRAND TOTAL OF ALL SCORES = 100**

The Chief Executive will take into account the following points when making a decision for funding:

- The application score achieved;
- The total demand for grants in relation to budget available;
- The availability of match funding;
- The amount of leverage to be gained;
- The extent to which the project could be funded from the organisation's own reserves;
- Elements of duplication;
- Wider community benefits;
- Overall sustainability;
- The additional indirect or in-kind support provided to the organisation;
- The Council's support as a proportion of the organisation's total service costs;
- DDC funding and support provided to the organisation or to that part of the district in recent years.

The scores awarded against specific questions are outlined in the pages that follow. Applications that score 75% or more may be awarded the full amount requested, or may be awarded an amount commensurate with their application score, but this will always be subject to consideration of the other points above. Applications that score between 50% - 75% may be awarded a grant commensurate with their score, but this will also be subject to consideration of the other points above. For example, if an applicant requests £10,000 but only scores 60%, they may be awarded 60% of £10,000, i.e. £6,000. Applications that score less than 50% will receive no grant funding.

For further information or help completing the application form, please contact the **Community Development Co-ordinator on 01327 302254** or e-mail [communitygrants@daventrydc.gov.uk](mailto:communitygrants@daventrydc.gov.uk)

## ***Guidance for Individual Questions***

### **Section One: About your Organisation**

- 1a** Enter the official and full name of the organisation making the application.
- 1b** Provide the applicant organisation's registered address and contact details.
- 1c** Provide the details of the applicant organisation's main contact – this must be someone who knows about the details of the project and where all correspondence will be sent.
- 1d** Tick what status your organisation has and insert the registration number if appropriate.

The following categories are **not eligible** to apply:

- Individuals;
- Private businesses;
- Statutory bodies; unless the bodies can demonstrate that the purposes for which they are requesting funding have a wider community benefit and contribute positively to the ongoing future provision of services to the community.
- Religious bodies where the monies will be used for religious purposes or religious buildings;
- Political parties or political lobbying;
- General fundraising or for unspecified purposes;
- Schools.

Additional information on alternative sources of funding can be sought from Daventry District Council's Community Development Co-ordinator on 01327 302254.

- 1e State the aims, objectives and purpose of your organisation.
- 1f State to the nearest month when the organisation was set up. [This helps us to see the profile of the organisations we are assisting, e.g. well-established or new ones].
- 1g State whether or not you are registered for VAT. If yes add your VAT registration number. *Please note, when an organisation is VAT registered, DDC will pay the nett amount of any invoice as the group can claim the VAT back themselves.*
- 1h Provide the details of the account where payments will be deposited if you are awarded a grant.
- 1i Enclose a copy of your equal opportunities policy or explain:
  - why you do not have a policy or
  - how you intend to ensure that there is equality of opportunity and access to your project or service, giving specific examples.

## Section Two: About Your Project

- 2a Tell us the name of your project that you require the funding for.
- 2b Advise of the date that your project is scheduled to start and finish. Successful applicants will be expected to complete their project within one year (12 months). After this time, all or any part of the funding not already drawn down will not be allocated unless otherwise confirmed in writing by Daventry District Council. **Please note that we do not fund projects in retrospect, therefore please do not commit to a purchase, contract or other binding agreement to the project before a formal grant offer has been made.**
- 2c Give us a brief summary of what your proposed project intends to achieve. Is this a new, existing or extended project? Explain what the funding you are requesting will be spent on. This will provide us with a general picture of how you see the project as a whole. (No more than 150 words). A project plan will be required in question 6d.
- 2d We need to understand where you wish to base the project and how much of the District the project will cover. The project will not be eligible for funding if it is not within Daventry District. **Wherever the Council invests in a project, we want to see it remain within the District for at least five years.**

## Section Three: Strategic Fit

For your project to be eligible for Daventry District Council Capital Grant Funding, you need to explain to us how **the project** meets at least one (but preferably more) of our three objectives. Scoring is relative to the extent to which corporate objectives are met by the project.

- Develop Daventry Town
- Maximise economic opportunities in the rural areas
- Facilitate and develop opportunities for employment and learning
- The District is recognised as being open for business

### Protect and Enhance our Environment

- Reduce adverse environmental impact
- Reduce the amount of waste generated
- Deliver attractive public spaces
- Preserve the District's heritage

### Promote Healthy, Safe and Strong Individuals and Communities

- Improved access to services
- Encourage a safe and healthy lifestyle
- People have the housing they need
- Support the community & voluntary sector

<b>Maximum</b>	<b>7</b>

### Section Five: Measurement and Impact

5a Daventry District Council also needs to understand how your organisation and the proposed project might address three other main themes that are considered in all of its activities:

**Bringing communities together** is a means of combating the inability of some individuals and groups to participate effectively in economic, social, political and cultural life. It is therefore the outcome of a range of activities by which the varying needs of a community, and the groups which constitute it, are recognised, prioritised and met. A cohesive community is one where there is a common vision and a sense of belonging for all communities. The diversity of people's different backgrounds and circumstances is appreciated and positively valued and those from different backgrounds have similar life opportunities. Similarly, strong and positive relationships are developed between people from different backgrounds in the workplace, in schools and within neighbourhoods.

**Access and equality** can be seen as an element of social inclusion. It has a rather more specific meaning, though, when used in the context of service delivery. Daventry District Council needs to ensure that where its money is used to support a project, anybody entitled to receive that service can reach it or be reached by it, can understand it and that one person using the service can be guaranteed the same full service delivery as the next.

**Crime and disorder** is an issue which Daventry District Council is obliged to address. Where we can influence people to think about improving the safety of an area or can take measures to reduce the likelihood, fear or impact of crime, we must do so. We need you to consider whether the project that you propose will have any impact on the reduction of crime and disorder.

<b>Maximum:</b>	<b>15</b>

## Section Seven: Buildings/facilities related project only

*If not relevant to your project or service, please go on to Section 8.*

- 7a** Tell us about the nature of tenure you have on the project site, and include copies of any lease, licence agreements or other documents that confirm your tenure with your application. **The organisation must either own the property or land or have some form of long-term lease agreement with the land/building owner for the application to be eligible.** In case of a new project where the tenure of land is still to be finalised, please enclose written confirmation from the landowner that the tenure or long-term lease will be granted.
- 7b** If you do not hold the tenure for the facilities or building, please tell us who does. We need to understand the agreement and nature of the relationship that you have with the owner to use the facility. If there are written agreements which describe this, please copy them and send them in with the application.

- 7c** Tell us for how long your lease or licence remains valid.
- 7d** Tell us if you are paying any mortgage or other charges on the property.
- 7e** We need to know where you have reached with any planning permissions, listed building consents or building regulation approval that your project may need.

**Note: It is your responsibility to find out which, if any, permissions you need and to secure such permissions prior to commencement of any project.**

## **Section Eight: Project Details**

- 8a** Tell us how long you intend your project to operate including opening hours/availability. We need to know whether it will operate for one, two or three years or is intended to be on-going beyond three years. If the project or service will not be on-going, i.e. will complete after one, two or three years, please tell us.

### **8b Project income and expenditure**

NB. Although Section Five simply provides us with information on the cost of the project as you have determined it, Daventry District Council reserves the right to query the rationale for any cost or to come back to the applicant organisation for further clarification where costs may appear unrealistic, either too high or too low.

Detail how much your proposed project costs are likely to be.

- 8c** If any costs of the project will be met by free 'in-kind' contributions, please detail them here so that we can see the true cost and benefit of the proposed project to you overall.
- 8d** Detail the level of known income and/or existing funds your organisation will directly provide for the project
- 8e** Detail the level of reserves the organisation holds, this needs to be broken down in to restricted and unrestricted reserves. Also indicate what any restricted reserves are restricted for.
- 8f** We need to know about any external funding (e.g. from any of the lottery funding bodies) that has already been confirmed and is earmarked for the project. **Although this is an 'information' question, where different applications have very close scores and there is little to tell between them in terms of quality or helpfulness to the community, our assessors may use this question and question 8f below to help decide between them.** Daventry District Council will look to support projects where the organisation has already raised its own funds and/or has secured external funding commitment from other bodies.
- 8g** Here we need to know about any funding that you are anticipating to obtain or apply for. Please include funding from your own organisation and funding anticipated from applications elsewhere (e.g. to lottery funding bodies). Applications should have been submitted by the time you make this request to Daventry District Council.

**8h** This is a simple calculation subtracting the potential income (the total of 8d, 8e and 8f) from the expenditure (8b). This is the amount you are asking Daventry District Council to provide in Grant Funding. Please bear in mind that the maximum amount of funding that Daventry District Council will provide is £15,000 unless in exceptional circumstances.
